

---

FREE DESK is a three-level adjustable desk that provides a clean, functional and organised work space. This flexible desk can be used in a home or an office environment; It can form a solution for small spaces and a too sedentary lifestyle.

Designed by 5 students from different fields of study who experienced the sudden shift to working from home & who know how it feels to sit behind a desk all day.

# Flexible Home Desk

---

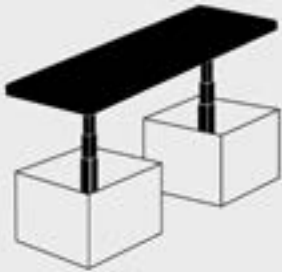

MAKE  
YOUR WORKSPACE AS  
COMFORTABLE AS IT IS  
FUNCTIONAL

BENCH

SITTING  
DESK

STANDING  
DESK

## ADJUSTABLE

Adjust the height of your desk by manually turning the handle of a crank system. The desk starts of as a bench, providing a sense of comfort, and can be transformed into a sitting- and standing desk, providing an organised workspace.

## FLEXIBLE DESK

Transform your home into an office & the other way around

Use in an office to increase the productivity of your employees

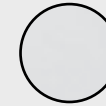

## FUNCTIONAL

FREE DESK provides you with an organised working space by integrating wire management and storage space. It also contains an integrated lamp as well as charging ports, to meet all your needs.

## MATERIALS

Solid Maple

Aluminium

## SUSTAINABLE

By using solid wood and water based lacquers, the amount of harmful chemicals (VOCs) that can be off-gassed into your work environment are reduced, thus minimising the impact on the environment as well as your health.
